## 簡介 Introduction

香港特別行政區政府一直致力支援香港的創新科技發展，並透過「創新及科技基金」下的資助計劃，資助私營企業的內部研發工作、與本地大學及科研機構合作的研發、科技應用、聘請研究員及博士後專才、專利申請等。

我們明白科技初創企業在成立初期，通常需經過多個增長及發展階段，所需資金亦會隨着企業成長而遞增。就此，創新科技署、香港科技園公司及數碼港亦已推出了多項資助計劃，為科技初創企業提供財政方面的支援。

此外，工業貿易署亦為私營企業在其他業務範疇包括市場推廣及發展品牌等提供支援。

我們期望這本小冊子能為企業提供本地公營科技資助計劃的概覽。詳情請瀏覽相關的網站。

The Government of the Hong Kong Special Administrative Region is committed to supporting the development of innovation and technology ("I&T") in Hong Kong. Through funding programmes under the Innovation and Technology Fund, we provide funding support for private companies for their in-house research and development ("R&D"), R&D in collaboration with local universities and research institutions, technology adoption, recruitment of researchers and postdoctoral talent, patent application, etc.

We understand that technology start-ups normally need to go through many stages of growth and development in their initial years, and they require an increasing level of investment as they grow. In this connection, the Innovation and Technology Commission, Hong Kong Science and Technology Parks Corporation (HKSTPC) and Cyberport have launched a number of programmes to provide financial support for technology start-ups.

In addition, the Trade and Industry Department offers support to private companies in other business activities such as marketing and branding.

We hope this booklet will offer an overview of local public technology funding programmes for enterprises. For details, please visit the relevant websites.
