What is accreditation? 何謂認可？

Accreditation is the third-party attestation related to a conformity assessment body (CAB), such as a laboratory, certification body or inspection body, conveying formal demonstration of its competence to carry out specific conformity assessment tasks (e.g. testing, certification or inspection). A robust accreditation system is the cornerstone for supporting the creditability of the testing and certification industry.

認可是由第三方發出證明，承認一間合格評定機構（如實驗室、認證機構或檢驗機構）有能力進行特定的合格評定工作（如測試、認證或檢驗）。穩健的認可制度，是為檢測和認證業奠定公信力的重要基石。

Accreditation Schemes of HKAS

認可處轄下的認可計劃

HKAS offers accreditation service through three accreditation schemes, namely the Hong Kong Laboratory Accreditation Scheme (HOKLAS); the Hong Kong Certification Body Accreditation Scheme (HKCAS); and the Hong Kong Inspection Body Accreditation Scheme (HKIAS). All accreditation schemes of HKAS are operated in accordance with the requirements of the relevant international standard, i.e. ISO/IEC 17011 and other criteria set by relevant international and regional cooperations of accreditation bodies. The schemes are designed to suit local circumstances and needs as well as to provide the maximum degree of flexibility. Participation in the three schemes is voluntary.

Seeking Wider Recognition of Hong Kong's Conformity Assessment Results

尋求各界更廣泛承認本港的合格評定結果

HKAS is active in the international accreditation community so as to uphold its international status and enlist greater recognition and acceptance of the conformity assessment results issued by its accredited CABs.

HKAS is a member of the International Laboratory Accreditation Cooperation (ILAC) and the International Accreditation Forum (IAF) at international level; and the Asia Pacific Accreditation Cooperation (APAC) at regional level. HKAS is also a signatory to the mutual recognition arrangements (MRAs) or multilateral recognition arrangements (MLAs) of these cooperations. MRAs/MLAs play an important role in building confidence in the competency of a global network of accredited CABs, providing a solid foundation for cross-border recognition of conformity assessment results. It allows conformity assessment service users, such as regulators and buyers, to make use of the conformity assessment results produced in other economies.

Accreditation and its Benefits

認可資格及其好處

Conformity assessment

合格評定工作

The development of the global marketplace has made buyers and regulators increasingly dependent on standards and conformity assessment to assure that products or services fulfill specified requirements. Conformity assessment verifies and hence increases confidence that a particular product or service meets the required level of safety or suitability. From the perspective of manufacturers or suppliers, conformity assessment assists in reducing the risk of nonconforming products / services and contributes to enhancing company's image for business promotion.

全球化市場發展使買家和監管者日益依靠標準和合格評定工作以確保產品或服務符合指定要求。合格評定工作能夠確認某特定產品或服務符合規定的安全水平或合適度，增加外界對該產品或服務的信心。對製造商或供應商來說，合格評定工作有助降低產品／服務不符規定的風險，並能提升公司形象和推廣業務。

Accreditation assures CABs' competence

認可服務可保證合格評定機構的能力

Manufacturers and suppliers often spend a lot of money in acquiring the services of CABs. Accreditation provides an effective means for CAB service users to identify competent service providers to fulfill their needs. CABs accredited by HKAS have all been thoroughly and rigorously assessed for their competence in performing specific conformity assessment activities within their scope of accreditation. As their ability to consistently produce technically valid conformity assessment results has been demonstrated and evaluated, their accredited services are considered reliable.

製造商和供應商經常付出大量金錢，向合格評定機構購買服務。認可服務能幫助合格評定服務使用者有效地識別有能力的服務提供者來滿足其需求。獲認可處認可的合格評定機構已接受仔細而嚴格的評審，確認其在認可範圍內進行指定合格評定活動的能力，證明他們可持續發出技術上有效的合格評定結果，因此能夠提供可靠的獲認可服務。

Gaining competitive advantage 加強競爭優勢

Today, economies have never been more interdependent. Products that are consumed in one market are no longer made in one country, but are made in the world. Small and medium enterprises (SMEs) supplying goods complying with standards are better able to compete and sell their products or services anywhere in the world. Consequently, conformity with national or international standards makes companies, industries and economies more competitive, and stimulates trade and diversification. Accredited CABs verify conformity with standards in the standards and conformance infrastructure. SMEs can increase their competitiveness by engaging the services provided by HKAS accredited CABs.

現今各個經濟體前所未有地互相依賴，從某市場購買的產品不再由單一國家生產，而是在全球各地製造。供應貨品的中小型企業（中小企）如符合標準，在世界各地出售其產品或服務會更有優勢。因此，符合國家或國際標準有助提升企業、各行各業和經濟體的競爭力，亦能促進貿易和多元發展。獲認可的合格評定機構會透過標準及合格評定基礎設施，確認企業是否已符合標準。中小企可透過使用獲認可處認可的合格評定機構所提供的服務來加強其競爭力。

Reducing risk and costs 減低風險和成本

By engaging an accredited CAB, the risk of having wrong or inaccurate conformity assessment results is significantly reduced. Tangible or intangible benefits / cost savings are realised from the prevention of:

- (i) Social and economic impacts due to release of unsafe products from incorrect conformity assessment results;
- (ii) Customer complaints due to poor product/service performance from incorrectly performed conformity assessment;
- (iii) Recall and replacement of non-compliant products due to the above;
- (iv) Loss of customers' confidence/loyalty due to the above; and
- (v) Re-evaluation of product/service.

使用獲認可合格評定機構的服務，有助大大減低合格評定結果出錯或偏差的風險，亦能避免因以下情況發生，從而實現有形或無形的效益／節省成本：

- 一、因合格評定結果錯誤導致不安全產品流出市面所帶來的社會和經濟影響；
- 二、因合格評定工作進行不當導致產品／服務表現欠佳而收到顧客投訴；
- 三、因上述情況而需回收和更換不符規定的產品；
- 四、因上述情況而損害顧客的信心／忠誠度；以及
- 五、需要對產品／服務進行覆核。

Access to new markets 開拓新市場

The liberalisation of economies and the globalisation of markets have intensified international competition. This has brought particular challenges to local companies. Creditable conformity assessment confirming products or services conforming to national or international standards is vital to access to the global market. As HKAS is a signatory to the MRAs/MLAs administered by international and regional cooperations of accreditation bodies, endorsed test reports and accredited certificates issued by its accredited CABs are recognised by its MRA partners worldwide. Such cross-border recognition mechanism reduces the need for repeating conformity assessment in the importing economies, hence reducing the cost of doing business and time-to-market for products. It also helps open the door to overseas market. As with the domestic market, an increasing number of organisations in both the public and private sectors are specifying accreditation or accredited conformity assessment as a precondition to tendering for contracts.

經濟體開放和市場全球化令國際競爭變得劇烈，為本地企業帶來嚴峻挑戰。透過具公信力的合格評定工作證明產品或服務符合國家或國際標準，對進入國際市場至為重要。由於認可處是國際及區內認可機構合作組織所管理的相互承認安排／多邊互認安排的簽署成員，因此，獲認可處認可的合格評定機構所發出的認許測試報告和認證證書，同樣獲認可處在世界各地的相互承認安排伙伴所承認。這個跨境認受機制減少在進口經濟體重複進行合格評定的需要，從而降低營商成本，縮短產品推出市場的時間，並有助打開通往海外市場的門戶。本地市場方面，愈來愈多公私營機構把認可資格或獲認可合格評定結果，訂為合約招標的先決條件。

Surveillance and reassessment 監察與覆審

After accreditation has been granted, an accredited CAB is reassessed at prescribed intervals. In-between reassessments, surveillance visits will also be conducted. The purpose is to ensure that the standards required for continued accreditation are being maintained. Assessment visits may also be arranged for monitoring changes in the CAB's circumstances that may affect its continued conformity with HKAS requirements.

獲認可的合格評定機構獲頒發認可資格後，會按規定每隔一段時間接受覆審。覆審之間亦會進行監察訪問，目的在於確保機構持續達到獲得認可資格的所須標準。此外，如合格評定機構出現可能影響其繼續遵守認可處規定的改變，認可處可安排進行評審訪問以監察有關情況。
