29 December 2023

Adjustment of Calibration Service Fee for Standards and Calibration Laboratory

Standards and Calibration Laboratory (SCL) commits to providing reliable calibration services to customers. SCL's calibration service fee has been in force since March 2017. The Government has frozen all fee review exercises in 2019 to 2021. Upon expiry of the fee review moratorium on government fees and charges on 31 December 2021, the Government has resumed the fee review exercises.

After review, the Government has approved a 3% increase in SCL's calibration service fee with effect from 2 January 2024.

For enquiry, please contact the undersigned at 2294 2923.
